- \*\*\*\* Permanent
- \*\*\*\* Normally Permanent
- \*\*\* Moderately Permanent
- \*\* Fugitive

## Adigraf Oil Block Printing inks are highly pigmented professional printing colours.

Made from high quality pigments, their intense colours offer a good covering for all manual relief printing techniques, including linoleum, block and woodcut printing. They are perfect for use on canvas, paper, overprinting and primed surfaces.

The 5 colours in this range can be complemented by blending any of the 58 Daler-Rowney Georgian Oil colours with Adigraf Oil Block Printing Medium to create an extensive number of shades and possibilities.

The Oil Block Printing inks are more durable than Water Soluble inks and need to be left to dry overnight before overprinting.

Adigraf Water Soluble inks, Oil Based inks, professional lino plates, lino cutters, ink rollers, printing plates and mediums offer professional artists and students alike an extended block printing suite of perfectly compatible products.

Discover the  
complete Adigraf  
suite of perfectly  
compatible products.
